

Dear business partners and customers,

Firstly, the whole Melecs EWS Lenzing team wishes you all the best for the still young business year 2017! We hope 2016 was a successful year for you personally as well as for your organisation.

In this first edition of our new quarterly newsletter – which will keep you informed about what's going on in our company – you'll find the following topics:

- re-certification ISO 9001 and ISO 13485
- upcoming: fairs and exhibitions
- Melecs EWS in online business networks

Re-Certification ISO 9001:2008 and ISO 13485:2012

In December 2016 MDC conducted the renewal of our production site in Lenzing. Both the obligatory ISO 9001:2008 certificate and the ISO 13485:2012 certificate have been renewed without objections. The latter places an emphasis on product safety and effectiveness of company processes. In addition to that, it contains a number of detailed requirements on production and bringing into circulation of medical and health care products. With this re-certification Melecs EWS Lenzing secures its medical technology segment which has been an important line of business for many years.

Upcoming: Fairs and Exhibitions

2017 already starts with two exciting trade show highlights for Melecs EWS Lenzing:

SPIE Photonics West, Moscone Center, San Francisco (31.1.-2.2.2017)

Photonics West in San Francisco is one of the biggest, multidisciplinary events (conference and exhibition) on photonics. About 20,000 people will come to hear the latest research and find the latest devices and systems driving technology markets including state-of-the-art medical technologies, the Internet of things, smart manufacturing and “Industry 4.0,” autonomous vehicles, scientific research, communications, displays, and other solutions powered by photonics. The Melecs EWS Lenzing booth is focussing on own development and solution competencies in the area of DLP (Digital Light Processing). We are looking forward to seeing you at booth 5265-G.

Project Iran 2017, Permanent Fairground, Tehran (25.4.-28.4.2017)

Together with other Austrian companies Melecs EWS Lenzing will be present at the international exhibition “Project Iran 2017” in Tehran, coordinated by the Austrian Chamber of the Economy. This event takes place for the third time and is broadly based on the topics „Construction Materials, Equipment and Technology“. Melecs EWS Lenzing will present its own development and production portfolio.
